BUFFALO SPRINGS,

A very remarkable cure of Dyspepsia by the rater of the New Spring or Spring No. 2, case f Miss M. E. F. Daniel: BUFFALO SPRINGS, VA., July 3d, 1873.

Cot. Goods:

Doar Sir:—At your request I make you a statement showing the benefit which I have derived from the water of Spring No. 2 at this place. In the Spring of 1833 I became the victim of Dyspepsia of a most painful and distressing character. Often my stomach could not retain the lightest article of food or even cold water and everything taken into it occasioned great uneasiness and at times severe pain. As was to be expected I suffered greatly from debility, so much so that I was often confined to my bed. I was at different times under the treatment of two intelligent physicians but derived no benefit from their remedies.

Some six weeks ago while suffering greatly, and as it seemed hopelessly, I learned of the beneficial effects of Spring No. 2 in a similar case and determined to try it. I was ston conscious of decided improvement which continued until my painful symptoms disappeared, and I now eat and enjoy whatever I fancy without the slightest inconvenience.

and I now est and enjoy where the stightest inconvenience.

Respectfully your,

M. E. F. DANIEL.

thrown so note't light upon Egyptian We propose, Mr. Editors, to account cred a lecture on him.

base, afterer any other pert. This greets to their nurse avery based clark. Unpleasant to culias to deep the last of prefer it to European runde. Yet the prefer it to European runde. Yet the the rocks are to mean the performing the latter. The hight of the fall varies with the very creditably. The nebrary lends which play daily in the product of the Esbekich are composed of comman of the latter. The length of the valor, and is usually about for seven feet. The length of the valor, and is usually about for seven feet. The length of the valor and is usually about for seven feet. The length of the valor and is usually about for seven feet. The length of the valor, and I have been told the about for and of course the current space of control of the last of the breadth across they learn in a very nort true. These shades play selecters from the last of the person of the last of purpose and upon what grounds of justification, we propose to show.

others, the first night we were driven out of our botths with great slaughter, and considerable blood letting. Only a vigorous wurfure ailed by the or

tract of delphinium, enabled us to rear justly considered as among the most remarkable in all Livid. We approached the island of Pink Livin direction just the opposite of the asual one, for we were coming down the river, while tourists and travelers can be from below. The island is some the river, while tourists and travelers can from below. The island is some the river seems from below. The island is some the river seems from below. The island is some that a rear wanting in this locanty. This sandstone, which appears in low cliffs along the river bank, furnished the material for all the great temples of Egypt. The stone was transported the baggage, we, while we were visiting the runs. These are considered as rather modern, their most ancient portion dating back only some flow as rather modern, their most ancient portion dating back only some flow cases before Christ. The principal uniding is the temple of Esy, commenced by Ptolemy Philadelphus 250 years B. C., and continued by his snecessors. Additions were made later by the Cessars as late as Train, and on top of many portions of the runs are the remains of crude brick buildings of Christian origin. On a smaller island, separated from, Philae by a narrow channel, are the runs of a Plotemaic temple of Athon, the Egyptian Venus. On the east bank of the river are also the wise of Athon, the Egyptian Venus. On the east bank of the river are also the wise of Athon, the Egyptian Venus. On the cast bank of the river are also the wise of Athon, the Egyptian Venus. On the cast bank of the river are also the wise of Athon, the flow of the cabin for the large are also the wise of Athon, the flow of the rank of the river are also the wise of Athon, the fact of the chiff, extending the river are also the wise of Athon, the same of the strength of the river are also the wise of the county. The state of the chiff, extending the river are also the principal and the river bank furnished using the river bank furnished the same of the particular forms the river bank furnished t
